

FUTURE ENERGY

Achievements and Outputs:

- Almost all of 6 master's candidates about to obtain degree.
- Two plans to pursue Ph.D. supported by a UTM FT matching grant and a JSPS fellowship.
- Virtual activities including online seminars organized by HUST, UNS, PNU and UTM.
- MyBamBoo provided practical skills to CEP students about biomass gasifier system.

What is in it from participating to CEP?

- Boosted confidence to cross supervise students from different countries and to accept more international collaboration
- Program activities, pride, and efforts from all partners endorsed by the name of AUN/SEED-Net
- Capacity enhancement of young educators and researchers enabled by industrial training and Japanese mentors
- Full support from the AUN/SEED-Net committee members even during tough pandemic
