

## STUDENT

- 3 from Cambodia
- 2 from Philippines
- 1 from Vietnam
- 1 from Myanmar
- 1 from Indonesia

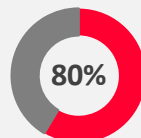

## SATFF MOBILITY

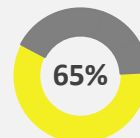

- Technical workshop in Construction Management organized by Institute Technology of Cambodia

# CEP-SIIT

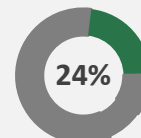

JICA-AUN-SEED/Net:  
SIIT-HU-ITC CEP  
Consortium by SIIT

STUDENT

SATFF MOBILITY

RESEARCH

## RESEARCH

- #1
  - The Optimization of Shared E-Scooter Management based on Ridership Data
  - Finite Element Analysis of Expansive Concrete Structures
  - Modeling the Integration of Prevention-through-Design (PtD) with Customized BIM for Designers' Adoption in Construction Safety Assessment
- #2
  - Study on Corrosive Resistance of Structural Steel Coated by Hot-dip Galvanizing in Thailand
  - Impact Analysis and Life Cycle Assessment of Cement Replacements in Concrete
  - Prioritization of Highway Upgrading Projects using Multi-Criteria Decision Making Method
- #3
  - On the study of varying weights of the basis functions in isogeometric analysis approach
  - Construction And Demolition Waste Management In Thailand Through Digitalization
